Employment Trends

As of 2015Q1, total employment for ZCTA 56537 was 10,143 (based on a four-quarter moving average). Over the year ending 2015Q1, employment increased 1.9% in the region.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2014Q3 with preliminary estimates updated to 2015Q1.

Wage Trends

The average worker in ZCTA 56537 earned annual wages of \$34,740 as of 2015Q1. Average annual wages per worker increased 2.3% in the region during the preceding four quarters. For comparison purposes, annual average wages were \$51,050 in the nation as of 2015Q1.

Annual average wages per worker data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2014Q3 with preliminary estimates updated to 2015Q1.

Cost of Living Index

The Cost of Living Index estimates the relative price levels for consumer goods and services. When applied to wages and salaries, the result is a measure of relative purchasing power. The cost of living is 1.9% lower in ZCTA 56537 than the U.S. average.

Cost of Living Information			
	Annual Average Salary	Cost of Living Index (Base US)	US Purchasing Power
ZCTA 56537	\$34,740	98.1	\$35,398
Minnesota	\$51,361	105.2	\$48,844
USA	\$51,050	100.0	\$51,050

Data as of 2015Q1

The Cost of Living Index is developed by Chmura Economics & Analytics and is updated quarterly.

Industry Snapshot

The largest sector in ZCTA 56537 is Health Care and Social Assistance, employing 2,338 workers. The next-largest sectors in the region are Retail Trade (1,646 workers) and Manufacturing (1,253). High location quotients (LQs) indicate sectors in which a region has high concentrations of employment compared to the national average. The sectors with the largest LQs in the region are Utilities (LQ = 5.00), Public Administration (1.70), and Health Care and Social Assistance (1.59).

Total Workers for ZCTA 56537 by Industry

Source: JobsEQ®, Data as of 2015Q1

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2014Q3 with preliminary estimates updated to 2015Q1.

Sectors in ZCTA 56537 with the highest average wages per worker are Management of Companies and Enterprises (\$115,770), Utilities (\$75,660), and Finance and Insurance (\$48,010). Regional sectors with the best job growth (or most moderate job losses) over the last 5 years are Manufacturing (+264 jobs), Educational Services (+239), and Retail Trade (+193).

Over the next 10 years, employment in ZCTA 56537 is projected to expand by 808 jobs. The fastest growing sector in the region is expected to be Construction with a +2.5% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Health Care and Social Assistance (+586 jobs), Construction (+96), and Retail Trade (+87).

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2014Q3 with preliminary estimates updated to 2015Q1. Forecast employment growth uses national projections adapted for regional growth patterns.

Occupation Snapshot

The largest major occupation group in ZCTA 56537 is Office and Administrative Support Occupations, employing 1,494 workers. The next-largest occupation groups in the region are Sales and Related Occupations (1,137 workers) and Food Preparation and Serving Related Occupations (912). High location quotients (LQs) indicate occupation groups in which a region has high concentrations of employment compared to the national average. The major groups with the largest LQs in the region are Healthcare Support Occupations (LQ = 1.81), Healthcare Practitioners and Technical Occupations (1.42), and Community and Social Service Occupations (1.40).

Occupation groups in ZCTA 56537 with the highest average wages per worker are Management Occupations (\$78,400), Healthcare Practitioners and Technical Occupations (\$68,800), and Architecture and Engineering Occupations (\$61,400). The unemployment rate in the region varied among the major groups from 1.4% among Legal Occupations to 6.0% among Construction and Extraction Occupations.

Over the next 10 years, the fastest growing occupation group in ZCTA 56537 is expected to be Healthcare Support Occupations with a +2.6% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Healthcare Practitioners and Technical Occupations (+172 jobs) and Healthcare Support Occupations (+159). Over the same period, the highest replacement demand (occupation demand due to retirements and workers moving from one occupation to another) is expected in Sales and Related Occupations (399 jobs) and Office and Administrative Support Occupations (355).

Note: Figures may not sum due to rounding.

1. Occupation wages are as of 2013

Occupation employment data are estimated via industry employment data and the estimated industry/occupation mix. Industry employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and currently updated through 2014Q3, imputed where necessary with preliminary estimates updated to 2015Q1. Wages by occupation are as of 2013 provided by the BLS and imputed where necessary. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

Industry Clusters

A cluster is a geographic concentration of interrelated industries or occupations. The industry cluster in ZCTA 56537 with the highest relative concentration is Coal/Oil/Power with a location quotient of 5.50. This cluster employs 300 workers in the region with an average wage of \$67,300. Employment in the Coal/Oil/Power cluster is projected to contract in the region about 1.5% per year over the next ten years.

Location quotient and average wage data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics, imputed where necessary, and updated through 2014Q3 with preliminary estimates updated to 2015Q1. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

Education Levels

Expected growth rates for occupations vary by the education and training required. While all employment in ZCTA 56537 is projected to grow 0.8% over the next ten years, occupations typically requiring a postgraduate degree are expected to grow 1.3% per year, those requiring a bachelor's degree are forecast to grow 0.5% per year, and occupations typically needing a 2-year degree or certificate are expected to grow 1.4% per year.

Annual Average Projected Job Growth by Training Required for ZCTA 56537

Employment by occupation data are estimates as of 2015Q1. Education levels of occupations are based on BLS assignments. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

FAQ

What is a location quotient?

A location quotient (LQ) is a measurement of concentration in comparison to the nation. An LQ of 1.00 indicates a region has the same concentration of an industry (or occupation) as the nation. An LQ of 2.00 would mean the region has twice the expected employment compared to the nation and an LQ of 0.50 would mean the region has half the expected employment in comparison to the nation.

What is replacement demand?

Replacement demand is the number of jobs required due to replacements—retirements and turnover resulting from workers moving from one occupation into another. Note that replacement demand does not include all turnover—it does not include when workers stay in the same occupation but switch employers. The replacement demand shown in this report may also be understated; thus, it can be taken to be a minimum measure of the number of workers who will need to be trained for the occupation due to replacements. The total projected demand for an occupation is the sum of the replacement demand and the growth demand (which is the increase or decrease of jobs in an occupation expected due to expansion or contraction of the overall number of jobs in that occupation).

What is a cluster?

A cluster is a geographic concentration of interrelated industries or occupations. If a regional cluster has a location quotient of 1.25 or greater, the region is considered to possess a *competitive advantage* in that cluster.

What is the difference between industry wages and occupation wages?

Industry wages and occupation wages are estimated via separate data sets, often the time periods being reported do not align, and wages are defined slightly differently in the two systems (for example, certain bonuses are included in the industry wages but not the occupation wages). It is therefore common that estimates of the average industry wages and average occupation wages in a region do not match exactly.

What is NAICS?

The North American Industry Classification System (NAICS) is used to classify business establishments according to the type of economic activity. The NAICS Code comprises six levels, from the “all industry” level to the 6-digit level. The first two digits define the top level category, known as the “sector,” which is the level examined in this report.

What is SOC?

The Standard Occupational Classification system (SOC) is used to classify workers into occupational categories. All workers are classified into one of over 820 occupations according to their occupational definition. To facilitate classification, occupations are combined to form 23 major groups, 96 minor groups, and 449 occupation groups. Each occupation group includes detailed occupations requiring similar job duties, skills, education, or experience.
